Founding Practice of CxSearch Global Partners

Practice Capabilities

Rinalytics (AI, Data and Analytics)

The first Super Specialized Analytics & Data Science Retained Search Practice in India – A horizontal practice focused across Industry verticals.

"No Industry can afford to Ignore Artificial Intelligence".

- MIT Technology Review

Overview – Rinalytics (AI, Data and Analytics)

Rinalytics Advisors, as a super-specialized retained executive search and executive research firm focused on Analytics and Risk Management leadership talent hiring, was founded in 2012. RINALYTICS is a conjoined word of Risk+ Analytics, was the only retained search firm in India to adopt the super-specialization concept then.

Rinalytics is now the AI, Data and Analytics Practice of **CxSearch Global Partners**, a global executive search and leadership advisory firm committed to building trusted partnerships with organizations to hire transformational leadership.

Find more about CxSearch Global Partners at www.cxsearch.com

The **Rinalytics** practice has been assisting our clients for over 12 years in hiring trailblazers in the fields of AI (Artificial Intelligence), Data and Analytics. We are well-versed in prevailing market trends, boasting an extensive network of data experts and executive councils. We remain keenly aware of the pedigree and competencies needed for success in the ever-evolving realm of AI. Our purpose is to collaborate with our clients to identify and onboard ideal leaders who possess the perfect balance of experience and expertise.

- Advanced Analytics
- Decision Sciences

- Business Analytics
- Digital and Web Analytics

Pioneering the Future: Unleash Generative AI

Generative AI, a subset of artificial intelligence that utilizes deep learning and neural network techniques on massive-scale data to create "novel" content of various types, such as text, images, video, audio, and code, has taken the world by storm at an unprecedented pace in recent times.

Why Generative AI Talent Matters:

In a world increasingly shaped by the transformative power of Generative AI, staying ahead of the curve is imperative. Generative AI isn't merely a technology; it's a catalyst for innovation. It powers self-learning machines, creative algorithms, and machines capable of dreaming, designing, and ideating. To thrive in this dynamic landscape, organizations need not just any talent but the right talent—visionaries and innovators who can harness the limitless potential of Generative AI.

That's where Rinalytics plays a pivotal role!

Your Success is Our Success:

Our mission is to connect forward-thinking organizations with the brightest minds in the Generative AI space. We are the premier talent acquisition partner specializing in the cutting-edge field of Generative AI. Whether you are a tech start-up pushing boundaries or an established enterprise looking to harness AI's creative power, we possess the expertise to make it happen.

Join us in shaping the future of Generative AI

Discover, attract, and retain the trailblazers who will drive your organization's success.
The future belongs to those who seize it, and we are here to help you do just that.
